## Badges For The Disqualified

We suggest that the government prepare badges or buttons, or something to serve the purpose, to give to the young man who has been disqualified for service, so that the young man can walk about with his head erect.

Many young men who appear to be strong and healthy to the general public are in reality totally unfit for military service.

Many young men who appear to be strong and healthy and who appear to be slackers, are in reality heads of families.

Many young men who appear to be likely subjects for military duty are engaged in vital industries and are contributing more to the defense program in the work they are doing than they would in the armed forces.

Such young men, who have been rejected or deferred by constituted authorities, should receive badges, buttons, or something like that, so that they will not be stared at like a bull stares at an illegitimate calf.

Many individuals have applied successively to the Army, the Navy and the Marine Corps and have been successively rejected by each branch of service in turn. It seems to us that each branch of service should give such individuals not only badges, but written statements (to "back up" their badges) concerning their rejection.

Local draft boards should be supplied with badges to place on the young men, who have been deferred on account of dependents, or on account of the fact that these young men were engaged in essential industry.

Let's be fair to the young men who, through no fault of their own, are out of service. But let nothing but scorn be the feeling toward those who, through subterfuge or other devious methods, evade their duty to their country.

## One Effect Of Tire Sale Restrictions

One effect of the restriction of the sale of tires will be immediate. Few people will go to Memphis, Greenwood and Jackson to shop. Knowing that the tires they now have will have to last indefinitely, the people will not waste several hundred miles of tire wear on going to Memphis to get something that they probably can get just as cheap here in Grenada.

The merchants of Grenada have the opportunity to recapture the trade that has been going out of town. To do this, they MUST advertise what they have to sell, as the Memphis merchants freely do. It would surprise some of the merchants of Grenada if they knew how little the average local buyer knows about local stocks and local prices. But, how can they know, unless the local merchants advertise their wares, as the city merchants do?

Grenada faces the opportunity to be as it once was in horse and buggy days, the trade center of an area fifty to sixty miles in diameter. Will Grenada grasp this opportunity? Is the question?

A certain hardware store in Grenada sells many articles cheaper, transportation charges considered, than the mail order boys. The average buyer does not know this, however. The average buyer, imbued with the idea that the mail order prices are infinitely cheaper than the local prices, pores over his highly illustrated catalogue and ordered from afar.

The merchants in Memphis who have heretofore not resorted to solicitations for mail order purchases are not going to give up the trade from Grenada (and other Mississippi communities) without a fight. They, too, will probably use newspaper advertisements to attract trade and use Uncle Sam's fleet to deliver the goods.

Did you know that one big house in Memphis makes regular deliveries TO THE VERY DOORS of people as far South as Ft. as Batesville and Sardis?

Grenada, like other "trading centers" faces the opportunity of coming back into its own. Will it (and they) do it?

## If The Camp Comes

There seems to be a rather strong probability that an army camp will be located in Grenada. There is some opposition, we hear, coming from the older and more conservative citizens, but the vast majority of people here will welcome a camp.

To people, like the writer, who own their homesteads, their places of business, the increased business due to the presence of the camp will permit them to reap a golden harvest. To those who rent homes, and do not hold long leases, and to those who rent their places of business without long leases, and to the men who work for salaries, the camp will not be of much benefit. Rents will rise faster than salaries. Other costs will rise faster than salaries.

But to the people who fear for the morals of the town, be sensible! The soldiers who are placed in the Grenada camp will be replicas of the boys who have come from Grenada to camps in other places, just boys like your boy and my boy, no better and no worse.

As for increase in disorders, you can bet your bottom dollar that the Military Police will keep the soldiers in line. The camp followers, and the seekers of easy money, as well as the army of workmen which will be necessary during the construction period are not subject to military discipline, and these elements no doubt will add to the problems of our law enforcement agencies.

Our city schools and our city administration might as well begin planning for an influx of new people, should the camp come.

## Another Effect Of Restriction On Sale Of Tires

Another probable effect of the restriction on the sale of tires will prevent the printing salesmen from Peoria, Pine Bluff, Chicago and Sioux City from coming to Grenada and selling stationery to the merchants of Grenada who depend for their existence upon the people, including the printers, of Grenada for existence.

## A Bad Sign

The nation's newspapers used headlines, something like this, "BEAUTIFUL CAROLE LOMBARD KILLED IN PLANE CRASH; 15 trained fliers also die," to head the story of a plane crash in which a beautiful screen actress and 15 trained pilots met their death. It seems to us, if we are to put first things first, the headlines should have been "FIFTEEN TRAINED PILOTS MEET DEATH IN PLANE CRASH; movie actress also killed."

However tragic it is for a movie actress to meet her death, it is infinitely more tragic for the United States to lose fifteen trained pilots. This war can be won if all movie actresses quit acting and went to work as charwomen; but it cannot win the war if it loses many trained pilots.

If it is the attitude of America to put screen actresses, however beautiful, however glamorous, however talented, above trained fighting men—even in newspaper headlines—we have already lost the war.

It is a bad sign when more attention is to be paid to actresses than to trained men.

## Foolish, Unfounded Optimism

We have in America a good many unthinking individuals who, without rhyme or reason, say that the war will be over in a few months. Such individuals, if they possess any influence, are dangerous.

With General MacArthur's valiant forces fighting desperately and probably hopelessly to hold a last foothold in the Philippines; with the Japs drawing closer and closer to Singapore, the Allies' last important base in the South China Sea area; with the Japs swarming into the Dutch Indies with ever-increasing fury and in ever-increasing numbers; with enemy submarines sinking vessels almost in sight of the Atlantic seaboard and in sight of the Pacific seaboard; with Hong Kong and most of Malaya gone; with these reverses to Allied arms, a person is indeed foolish to predict that the war will be over in a few months unless he figures that the ALIES WILL LOSE THE WAR.

Our people had better get themselves into this frame of mind: "We will eventually win this war, but only after a hard, long and costly struggle." Our leaders, who KNOW what they are talking about, do not predict an easy victory. Rather, they predict victory upon a sustained effort on the part of every individual in the Allied countries. They do not promise victory in several months; they promise nothing but blood, sweat and toil, and plenty of each.

The German army entered Russia by the MILE; it is being driven back foot by foot. This is a fine trend, but it is only a trend. The German army is by no means defeated. It remains the most powerful, and best trained military organization on earth.

It is just as foolish to be over-optimistic as it is to be over-pessimistic.

## Scrap Iron

Scrap iron is essential to shortening the war—the farm, is important source of this vital war material. Farmers should sort carefully all pieces of old machinery in order to get for the government all scrap, yet retain for repair of needed farm tools and implements all parts that are usable in an efficient production of feed and food for earliest possible victory. Now is the time to check list and repair all farm machinery, if this has not been done already, as a patriotic duty and a matter of efficient farm management. Use for this purpose Defense Equipment Form No. 1 which can be obtained from the County Defense Board or County Agent's office. This is part of the national farm machinery program planned to maintain and assure continued production and harvest of farm crops for the duration of the war.

## Congratulations, Power Trust

In this era where there is an almost unbroken line of marked-up prices, it is refreshing, welcome and delightful to see that the Mississippi Power & Light Company, the company that serves Grenada and other communities of North and Central Mississippi, has made a voluntary reduction in its rates to commercial customer. The reduction will range from ten to twenty-five percent, depending upon technical factors that, were we capable of explaining them, could not be understood by the laymen.

Suffice to say, we have had a reduction and we are not going to look at the mouth of any gift horse.

## Treading On Dangerous Ground

When a fellow starts messing with the wimmen's business he is getting on dangerous grounds.

Even if we realize the truth of the above assertion, we dare suggest that the wimmen cut out some of their cultural club activities and, instead, attend Red Cross instruction classes, learn to knit and sew, learn to make hominy from corn, ashes and water; learn what to do in case of a black-out.

The men who meet, talk and gossip, then "resolute" and sing "God Bless America" might use their time more profitably in learning something about demolition, about First Aid and about the extinguishment of incendiary bombs.

## Books For Soldiers

If you are going to give books to the men in the armed forces, give books that the men will read and enjoy, not a bunch of ancient dust-atchers that you are tired of dusting off and rearranging.

Having been a soldier, we can say with a good deal of conviction that soldiers as a rule are not interested in Thackeray, Dickens, Dumas and the other "deep sea" writers. Nor are they interested in geographic, geodetic, phisic, phrenologic and such books.

If you just must get rid of your dead stuff, give such books to the Boy Scouts for waste paper or have them hauled off to the river. Soldiers are not interested in such literature.

See where Roll-em Wall is trying something that many have tried in vain - to get Bilbo.

Save your waste paper.

## DECLARATION OF War POLICY

THREE YEARS AGO, when the world was substantially at peace, this writer issued a declaration of business policy to mark the occasion of his taking office as president of the Illinois Central System.

But veritably a lifetime has been lived in those three short years. Today we are engaged in a world war, a war that endangers the continuation of our nation's freedom and our American way of life. That war now takes precedence over everything else.

So now I restate our policy in terms of the war. To suffer hardships, if those hardships are necessary, will be not a sacrifice but a privilege, as has been so ably revealed. If the army or the navy or the marine corps or military production needs something the Illinois Central has to offer, that service will be provided in the certain knowledge that our regular customers will understand and gladly yield if temporarily inconvenienced or discommoded.

We must win the war. Yet, to the extent that may be permitted, we hope to provide:

For business and individuals, adequate and dependable transportation, pleasant service, continued improvements, fair and reasonable rates that will stimulate commerce and yet cover our costs.

For our workers, reasonable wages, fair treatment, good working conditions, modern tools.

For our investors, a return that will maintain credit and attract needed new capital.

For our friends and neighbors, performance that will command—and deserve—their continued confidence and good will.

But all these are as nothing if we lose the war. We must WIN the war. To that end we of the Illinois Central pledge our hearts, our hands, our every effort.

### DUPLICATE CLUB

The lovely home of Mrs. J. H. Neely was open to club member guests on Tuesday afternoon when the Duplicate Bridge Club members assembled for games. Three tables were arranged for the guests and Mrs. E. L. Morrow was the only non-member guest present.

At intermission Mrs. Neely served delicious sandwiches and Coca-Cola. Winners of high score prize award were Mesdames R. C. Truist and the hostess. Second high prize award was presented Mesdames L. E. Noble and Ben Townes.

### DISTINGUISHED VISITORS

Captain Lee, of the Mississippi Highway Patrol Headquarters at Jackson, who is conducting two First Aid Treatment classes in Grenada each week, was accompanied to Grenada Tuesday night by two ladies from Jackson. They were Mrs. Stone and Mrs. Hattie May Pattison. Mrs. Pattison is Editor of Highway Magazine of Mississippi and is Secretary of the Senate. She and Mrs. Stone have only recently completed the course in First Aid Treatment as taught over the State by qualified instructors, and not only did the class in Grenada enjoy having these two interesting ladies as their guests but they too seemed most interested in all of the work put on during the evening and in watching Captain Lee as he instructed in bandage application and artificial respiration.

Mrs. E. A. Penn has returned home accompanied by her lovely little granddaughter, "Penny," from Nashville, Tenn., where she visited her mother, Mrs. R. B. Hager, her sister, Mrs. J. H. Drayton and son, Mr. Lawrence Akin and family; also her daughter, Mrs. Con Newson, who resides in Fayetteville, Tenn.

Mr. and Mrs. C. C. Cathey will leave for California on Friday to attend to business affairs. They will make the trip by plane from Memphis. Their little daughter, Suzanne will visit Mrs. Cathey's sister and Mr. Cathey's father will be in the Catheys' home with young Tom while his parents are away.

### DEC. WEDDING ANNOUNCED—GAINES-BLAKELY

In a quiet wedding ceremony on December 19th at 8 o'clock in the evening, Miss Edith Eugenia Blakely, of Sardis, became the bride of Private W. G. (Jim) Gaines, of Grenada and Camp Blauduz, Fla. The vows were said in the candle lighted living room of the groom's home in Grenada, and the Rev. Glen Eric Wiley officiated. The presence of a small group of relatives and friends. The double ring ceremony was used.

The attendants were Mrs. W. O. Gaines, who was matron of honor and Mr. W. O. Gaines as best man. Others present were Mr. and Mrs. C. A. Elchert, Mr. and Mrs. W. L. Gaines, Mrs. W. L. Weisska, of Grenada, and Mrs. J. E. Blakely and Miss Dorothy Blakely, of Sardis.

### ANNOUNCING INSTALLATION SERVICE

## Every Package That You Carry HELPS US HELP AMERICA WIN THE WAR

Since every mile our trucks do not run adds a mile to the range of some of Vital Defense Equipment, we feel for the time at least, that our customers will be glad to cooperate with us by giving us your whole order at one time - giving it to us as early as possible.

We hope that you can and will see our position in that we are in the same position, as to tires on our delivery trucks as you are with your cars and that is that when our present set of tires wear out that it will be almost next to IM-POSSIBLE TO GET MORE.

The demand for packing boxes for military supplies is causing a shortage for paper bags and wrapping paper, so we are asking our customers that where food comes ready packed in cans or hermetically sealed packages, you accept them without further wrapping. You are then really contributing to National Defense.

Furniture orders under \$5.00 will be delivered at 11 a. m. or 4 p. m. daily. In larger orders, where the customer requests prompt delivery, we will exert every effort to meet demands. Plan your delivery service carefully and help save rubber tires.

Let's help make the deliveryman's tires last as long as possible. If we expect him to deliver a package of soda the first thing in the morning, a can of snuff at 11, a corn plaster at 3 and a loaf of bread about 4, he will soon be without tires. Our own tires will be worn out, and we will have to tote all of our stuff. Anticipate your needs, so that you will need at most one delivery a day.

A recent letter from Henry Orman, of Los Angeles says that his mother is doing fine, considering her age; that Katherine and husband have moved to Houston, Texas; that Eva May is to marry soon; and that he and the other people on the Pacific Coast are not nearly as worried about the Japs as the people in the interior seem to be. He says they are taking all possible precautions. Henry wants to be remembered to all his old friends.

"Does your father belong to the Rotary Club?" asked a lady of a little girl. "None," replied the little girl. "Does he belong to the Lions Club?" asked the lady. "None," replied the child, who added proudly, "but he belongs to the Ferdinand Club".

Our opinion about the dam across the Yalobusha River has not changed. Our opinion is that it WILL be built, but not until after the war. It does not seem reasonable that the government, which needs every ounce of energy of its citizens in the prosecution of the war, will divert any energy and money to projects that can wait.

Some people are learning to walk again. "Riding Shank's mare" is the old expression describing walking.

Our customers certainly did keep Horn and Greenfield out of devilment last week. Advertising was quite slow, but job printing was instrumental in giving us a full week.

And they sweet.

We think that Harry Burkley is doing a fine, patriotic, yet thankless job of being Red Cross Chairman of the county. We have heard no one say to the contrary.

Speaking of Miles and his job as janitor, that job certainly has its attractions from the number of folks applying for it. Whose baby is that job, anyway? There seems to be a good deal of confusion about it.

Walking will help reduce some of these enormous bay windows.

#### HAVE YOU CONTRIBUTED TO RED CROSS WAR RELIEF?

Have you contributed to the Red Cross War Relief Fund? Grenada County needs your donation to complete its quota. Do not delay. Do your part today. Send contributions to H. L. Honeycutt, Chairman Red Cross War Relief Fund, Grenada, Mississippi.

Miles Smith, who has resigned as janitor at the post office, is going to some hellacious place in Alabama to be night watchman on some defense job. He paid us \$1.50 recently.

Tom Abernethy who, many believe, will seek to send Ford back to Arkansas, was nosing around in Grenada recently.

IT CAN happen to us.

It is just whistling in the dark to say that the war will be over in several months. The only way the war could end in that length of time would be by the defeat of the Allies. Such foolish optimism is ill-timed, when coming from responsible people. We are going to win the war, but wishful thinking and singing "God Bless America" are not going to contribute to victory. Blood, sweat, toil and sacrifice are the tools of victory.

Clyde Hayward, one of the best farmers in the county and a man who attends strictly to his own business, came in and renewed his obligations for the year 1942.

Grenada County, which used to hold up county accounts for months on end - on account of lack of funds - has not missed a payday in several years. Our county officials are doing a good job.

Just Cook and Squire Gray honored Grenada with their respective presences Saturday.

As for us, we are through with all politicians. Politicians, as a class, are the most selfish group on earth. We know NO exceptions to that rule.

#### GORE SPRINGS NEWS

Mr. Earl Tharpe celebrated his 34th birthday Sunday very happily by his wife preparing a bountiful dinner and having with them Mr. and Mrs. J. C. Tharpe, Mr. and Mrs. J. E. Tharpe and daughter, Peggie Ann. Mr. and Mrs. Ray Cohea and daughter, Glenda Lee, and Miss Vida Tharpe. In the afternoon other relatives and friends visited in this home.

Miss Agnes Haile, of East St. Louis, spent the week-end with her parents, Mr. and Mrs. T. P. Haile.

Mr. Jack Clanton, who is now boarding with T. J. Tharpe, spent Saturday night and Sunday with his parents, Mr. and Mrs. M. P. Clanton, near Cadaretta.

Wonder what Miss Hattie Gillon is doing for passtime these days. The last we heard she had stopped playing with cats and gone to reading books. Guess the library will pick up now.

#### BOOKS FOR SOLDIERS

If you are going to give books to the soldiers, donate your favorite sex novels.

If you are tired of dusting off Dickens, Thackeray and such classics you can put them out for Mike Talbert to haul to the trash pile and save them for waste paper.

Mr. and Mrs. David McKeith and two sons, Wayne and Sharon, of Safford, spent Sunday afternoon in the home of Mrs. Annie Tharpe.

Rainy weather and broke-down cars can cause lots of trouble for motorists. Ask two little boys who work at the hosiery mill.

Mr. W. Landon, of Red Cross, was a dinner guest of Mr. and Mrs. T. P. Haile Monday.

We are proud to learn that Mrs. Ad James, who has been sick is some better. We feel like Mrs. James is one of the best ladies in Gore Springs.

## President Names Production Czar And Reorganizes Defense Set-Ups To Speed Up All-Out War Effort; Report Submarines Off East Coast

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

Leon Henderson, director, Division of Civilian Supply of the Office of Production Management, tries out one of the "Victory model" bicycles produced by manufacturers at request of OPM. This lightweight model is constructed of less costly material, and shorn of all gadgets. The new bikes will be built for both men and women. Photo shows Henderson pedaling, and Miss Betty Barrett of York, Neb., in the luggage basket. A sure way for the boss to get his secretary to the office on time.

### NELSON: Production Czar

As the United States moved forward into all-out war production, Donald M. Nelson had been named production chief, placed in sole command over OPM, SPAB and all other vital production organizations.

His position was compared to that of Bernard M. Baruch in 1917. Mr. Nelson had been, before his promotion to sole command, the head of SPAB, the priorities control board, and thus had been sitting with his hands on the needle valve which kept materials flowing smoothly to defense plants.

His post also was compared to that of Lord Beaverbrook in England.

He was given command by executive order, and though the order did not immediately make legally clear how far his power went, there was enough in President Roosevelt's statement to show that it would go far enough to put Nelson into sole command.

A board, including Messrs. Knudsen, Hillman and other chiefs of various vital groups, was to work under Nelson.

The President said, in part: "Mr. Nelson will no longer serve as director of the priorities division. He will devote his entire time to directing the production program. His decisions as to procurement and production will be final."

Thus Mr. Nelson has authority over not only the industrialists and labor leaders who were in Washington to harness American production to a program for victory, but also over the army and navy themselves, in a way, because his decisions as to what they might have in the way of arms and munitions would be final.

They would still have legal contracting authority, but Mr. Nelson would have to pass upon these contracts before they could go into effect, and could, in effect, make them larger or smaller, quicker or slower.

### LUZON: Defense

When the history of World War II is written it will have become evident that the defense of Luzon by the American-Filipino forces under Gen. Douglas MacArthur should be placed alongside of other famous "last stands."

Conceded only the slimmest possible hope of hanging on until help might arrive, the MacArthur forces, entrenched in the Mariveles mountains back of Manila bay, had reported not only stemming an "all-out" Japanese drive, but that they had driven the attackers back.

They had forced the Japs to remove their big guns far to the rear, out of range of the American batteries, had silenced 11 Japanese batteries, and had raised havoc with charging detachments of tanks and infantry.

Not in any way claiming that the Japanese advance had been permanently checked, General MacArthur reported to Washington that the 24-hour battle had shown definitely that the American guns and gunnery were superior to those of the enemy.

The Japs claimed that they had taken Olongapo, naval base on a bay to the north of Manila bay, and this had been confirmed by Washington.

There was more than a suspicion that the Japs were content to let the present armed forces now in the Philippines do the "mopping up" against the MacArthur army, and had turned their attention rather to increasing the tempo of the all-important Malay offensive, and the general offensive against the Dutch East Indies, using Mindanao as a base.

### SUBMARINE: Action

Navy planes and ships had a busy time chasing enemy submarines reported lurking off the East coast of the U. S.

Two ships were reported sunk by submarine action off Long Island, N. Y. The first was the Panamanian tanker Norcross which was hit by three torpedoes about 120 miles from the coast. Next day watchers on shore claimed they saw a submarine sink another ship about 23 miles from shore.

Meanwhile U. S. underwater craft were also busy, but the location of their action was not disclosed. The navy reported that a 17,000 ton Jap ship of the type used as a plane carrier had been sunk by U. S. submarines in Far Eastern waters.

### MALAYA: Scorched Earth

The house of commons criticism of the British Malaya forces in not carrying out the scorched earth policy was met by dispatches which had been delayed tending to show that the British had applied that policy in the completest way possible.

An eyewitness description of the British evacuation of Perak, Selangor and Kuala Lumpur, the latter an important rubber city and the capital of the Federated Malay States bore this out.

A Durin dispatch to the Times from Seremban stated that in Perak and Selangor alone millions of dollars' worth of rubber stocks and rubber processing plants and millions more in tin mine dredges and tin ore processing machinery had been destroyed.

In addition the destruction of petroleum products totaled several millions of dollars.

Copra and coal docks were dynamited or burned. Dynamiters were mining the country through which the Japs were approaching closer to Singapore, and this was evident in the slowing down of the Japanese advance.

Describing the evacuation of Kuala Lumpur, Durin wrote that the British had opened the larger stores and had removed what stocks it wanted, and then had left the stores open to allow the population to take what it wished.

The inhabitants seethed up and down the streets which were littered with refuse, carrying what they had been able to get aboard rickshas, on bicycles and on shoulders and heads.

From every corner of the city sounded the booming explosions as the Punjab sappers and dynamiters destroyed bridges, roads and other communication links as soon as the British convoys had moved through the city.

Two large department stores were completely despoiled of goods within a few hours. Coolies who had never tasted chocolate candy went about with their arms full, giving them away to others who had none.

The burning of the rubber trees was not possible, but since the plants producing rubber and the rubber stocks were burned, the British say it will be a long time before the Japs can get any.

### HITLER: Has He Fled?

Unconfirmed reports had been received from the Russian front that Hitler, with Smolensk threatened by the Russian armies, had fled to a safer point.

While this had been impossible of confirmation, the Red headquarters reported capture of towns in the "Smolensk area" which showed that the war was coming uncomfortably close to "Der Fuehrer" if he was still there on the scene of actual service.

## AROUND THE HOUSE

Moisten dry stove polish with vinegar instead of water and your stove will take on a better polish.

If you like the flavor of cloves, try adding a few whole ones to the fat in which doughnuts are fried.

Keep spices tightly covered and away from the heat. Otherwise, much of the flavor may be lost.

Paintbrushes, when not in use, should be soaked in turpentine and washed in warm soapsuds before they are stored away.

If shredded coconut becomes dry it can be softened by steaming in a clean cloth over boiling water.

Don't keep green bananas in the refrigerator. They ripen at room temperature.

Don't open cans or chop ice in the sink—you will damage the enamel.

To remove paper that has stuck to a polished surface, soften with a little olive oil.

If potatoes are placed on the broiler rack instead of the floor of the oven they will bake quicker.

## SCRAP IRON

It may be that those who let millions of tons of scrap iron go to Japan are not too anxious to advertise our present dearth of scrap. But the real fact is that it is so serious as to cause the shutdown of nine blast furnaces in Youngstown, Ohio, alone.

To meet the shortage, the OPM has been conducting an experimental campaign to collect scrap iron in Erie, Pa., and is launching other campaigns in Boston, Pittsburgh, Bridgeport and Akron. However, the campaign is going very slowly. Chief trouble is that collections are made through the normal scrap iron trade.

Therefore, it looks as if the American public might have to take things in hand. A survey of Butler county, Ohio, shows that every farmer has an average of about 500 pounds of usable scrap iron and rubber rusting or rotting behind his barn. On this basis, the OPM estimates that it should be possible to collect 1,500,000 tons of scrap from American farmers.

Not many people realize the importance which scrap plays in the iron and steel industry. Ordinarily, steel is made 50 per cent from ore and 50 per cent from scrap iron. But today ordinary supplies of scrap iron are diminished, not only by previous sales to Japan but by the fact that war industries supply no scrap. Many tanks, guns, and military motor trucks are shipped off to Egypt, Malaya or Russia. They never come back. Ordinarily, industry supplies its own scrap iron from junked automobiles, etc. But now there will be fewer automobiles to junk.

So the scrap iron problem is one which will require every farmer and householder to look around behind his barn or in his basement to see what he can spare for war industries.

You can check off lead as the next strategic material to be put under interdiction for civilian use. OPM's banning order will be issued shortly. That will mean the end of lead foil and numerous other items of normal everyday use. One possible exception may be lead for automobile batteries, but even that will be under severe restrictions.

Reason for the ban is inadequacy of domestic supply to meet the increasing need for bullets. War production tables call for a lead consumption of 60,000 tons monthly by June; 100,000 tons monthly by next January. For military reasons, figures on U. S. supply can not be disclosed, but it is below what is needed even with production increases now under way plus imports from Canada, Mexico and other foreign sources. So civilian use will be restricted for the duration.

## WLW ICELAND

The largest standard-wave broadcasting apparatus in the U.S.A.—owned by WLW Cincinnati—may be set up in Iceland to drown out Hitler's rasping broadcasts to the German people.

For many years WLW operated a 500,000 watt station in Cincinnati, but was forced by the Federal Communications commission to reduce to 50,000 watts, which is the maximum for ordinary commercial stations in the U.S.A. Therefore, WLW has now offered its big 500,000 watt set to the government to be established in Iceland. Since Hitler's stations are nowhere near as strong as 500,000 watts, WLW's beams from Iceland could drown out his voice every time he went on the air.

Furthermore, WLW Iceland would not operate on short wave, which the German people are not permitted to hear. It would operate on a standard broadcasting beam and would come in over the ordinary German radio. By turning a button in the station in Iceland, the wavelength could be changed to cut in on any German program.

There is one catch to the proposal, however. WLW Cincinnati wants to make a deal with the government whereby it would be permitted to set up another 500,000 watt station in the United States in return for sending its equipment to Iceland.

## THE TEMPTATION OF JESUS

LESSON TEXT—Matthew 4:1-11.  
GOLDEN TEXT—For we have an high priest... (who) was in all points tempted like as we are, yet without sin.—Hebrews 4:15.

"We have not a high priest that cannot be touched with the feeling of our infirmities; but one that hath been in all points tempted like as we are, yet without sin" (Heb. 4:15, R.V.). We recognize that Jesus was tempted as the Messiah (see Matt. 4:3, 6) and as One who had no sin, and yet He was tempted in all points as we are; and we may learn from His temptation how to meet temptation and be victorious over it.

**I. Temptation.**  
It is the common lot of all mankind to be tempted (I Cor. 10:13). The strongest and most noble of men are subject to it; angels were tempted—yes, even Jesus was tempted. We need to know about temptation, so we note

1. What It Is (v. 1). Temptation is of the devil. It is, as Principal Fairbairn expressed it, "seduction to evil, solicitation to wrong. It stands distinguished from trial thus: trial tests, seeks to discover the man's moral qualities or character; but temptation persuades to evil, deludes that it may ruin. God tries. Satan tempts."

Note that temptation is not sin, but yielding to the temptation is sin. We are told by James (Jas. 1:13-15) that man is tempted by his own lusts. He also tells us that God may permit temptations or trials to test our faith (Jas. 1:2, 3), but His purpose is only to prove us able to stand. God does not suffer us to be tempted beyond endurance, but provides a way of escape (I Cor. 10:13).

2. How It Works (vv. 2, 3, 5, 6, 8, 9). Satan has only three temptations, although he is a master at giving them different appearances. The temptation of Jesus followed the same threefold line as that of Adam and Eve (Gen. 3:6), which is described in I John 2:16 as the general temptation of all men, namely, "the lust of the flesh, the lust of the eyes, and the pride of life." Observe how Satan worked on Jesus: (a) By appealing to the flesh (vv. 2, 3). Jesus had fasted 40 days, and Satan took advantage of that fast to suggest that He use His divine power of creation to satisfy His hunger. To do so would have been to deny His very mission on earth.

Satan observes in man the normal appetites of his body, excites them to a high degree, and then tempts him to satisfy them in an improper way. (b) By appealing to pride (vv. 5, 6). God had promised to keep Jesus "in all his ways" (Ps. 91:11), but casting Himself from the temple was not one of God's "ways" for Him.

The devil wants us to be presumptuous and call it faith, and this is his pitfall for one who really wants to believe—cause him to become a fanatic and substitute foolish presumption for faith. (c) By appealing to the eyes (vv. 8, 9). By showing Christ the kingdoms of the earth in some kind of striking panorama, or moving picture, he offered a short cut to their rule by a brief act of worship of him, rather than by way of the cross. The devil showed his real purpose here. He wants worship—he wants us to bow to him instead of to God.

## II. Our Lord Was Victorious Over Satan.

We, too, can triumph in His blessed name. To do so we need to study the way of victory.

1. How to Gain It (vv. 4, 7, 10). Three steps appear: (a) By the right use of Scripture. If our Lord needed and used that weapon, how can we possibly do without it? How can we use it if we do not study it, and hide it in our hearts (Ps. 119:11)? (b) By complete dependence upon God. Every Scripture used by Jesus against Satan honored God the Father. We cannot fight Satan in our own strength. Luther was right—"Did we in our own strength confide, Our striving would be losing."

The real victory for the Christian is to bring Satan to the foot of the cross. Christ defeated him completely there, and we may plead that victory. (c) By denouncing Satan. Jesus sent him on his way. We may do the same, in Jesus' name. It is always a serious error to argue with Satan, or even to discuss matters with him. He is not divine, but he is a supernatural being with knowledge and cunning which are too much for us. Meet him with Scripture, honor God by your faith in Christ, then "resist the devil, and he will flee from you" (Jas. 4:7).

2. What It Brings (v. 11). When the defeated devil left Christ, angels came and ministered to Him. The overcoming of temptation brings victory, peace, and blessed rest. This is ever true in the life of the believer. Temptations victoriously met make one stronger in meeting the next temptation. There is always a next one, for we read (Luke 4:13) that the devil left Christ only "for a season."

**HELP COLLECT SCRAP PAPER**

The Scouts of Grenada are collecting paper, such as old newspapers, magazines, card board, etc., every Tuesday and Friday afternoon between the hours of 3:30 and 5 o'clock. All the students in High School can help the Scouts by putting such paper on their front porches. It will keep the Scouts from having to waste time asking at the door. The receipts from the sale of the paper will go to the local Boy Scout troop for purchasing uniforms for Scouts.

## G. R. NOTICE

The Girl Reserves are planning to do a little celebrating by having a "how-out" in the near future. Miss Boss Hennen, a State A. W. C. A. worker is going to lead this party. All G. R. read the following directions. Be present at the High School gym Monday night at 7:30 prepared to have

the time of your life. Tell Miss Haynes or Mary Lou if you will be unable to attend!

## MAGICIAN'S SHOW

On Thursday G. H. S. was pleased to have Birch, the famous magician perform at the high school. The afternoon show was especially for the Grammar School children. To the delight of these children, Billy Parham and Hal Pleasant were named by Mr. Birch as his assistants. The night performance, which was about one hour longer, was for adults.

The most "startling" act was Birch's presumably cutting a lady into several pieces. The vanishing pony and the Hindu Rope trick also caused many "ohs" and "ahs". The next assembly program will be sponsored by the senior class.

## BASKETBALL NEWS

At our gym Wednesday night our G. H. S. teams strictly "slaughtered" Winona teams at a little game called basketball. Lou Cullen now known as "Seven-point" Lou was named Captain of the Girls squad for that night. Hazel Turner, Margaret Cannon, Mary Cullen, Ruth Morrow, Mary Moore, Juchheim, Jewel Terry and Billie Guy Thomas won over the W. H. S. girls with an eighteen point lead—the score being 25 to 7.

The boys easily whipped Winona's boys with a 19 to 13 score. Moore, Patty, and Thomas as well as everyone else played good ball. Here's hoping that they'll win again.

## CAN YOU IMAGINE?

Reuben not escorting Jeanie around town?  
 Nellie and Anne not eating at Grenada Drug every afternoon after school?  
 The basketball girls not feeling dead every afternoon after practice.  
 James Elliott missing a chance to be with Catherine?  
 Jay Gore staying at home on Friday and Sunday nights?  
 Emmett not "whizzing" down Cherry?  
 Floyd not taking up tickets?  
 Monty not beaming at the slightest mention of Indianola?  
 Dot Talbert not beating everyone else in typing?  
 Mildred Moss without William Gammon?  
 S. B. Cowan not talking "Band"?  
 G. H. S. having a coke machine? (We can't, can you?)

## DIET

The Girl Reserves are looking forward to their party which is to be Monday night. If you remember the G. R. wrote Santa Claus to send them a party. Who said there isn't a Santa Claus?

Rowe, one of Lil's one and onlys, has been seen with Margaret Greene here lately.

Here's hoping that Betty Horn will be back in school before very long. Betty is a grand old gal and we send her best wishes for a speedy recovery.

Here's hoping Margie Ray, who has been absent from school here lately, will soon be back in the halls again—talking as usual!

## STYLE HIT PARADE

Earbobs are coming back! While in Jackson, Dot Talbert stocked up with blue, brown, red and white colored ones. Lou has some to match her bicycle and necklace.

Anne Duncan's new brown tweed coat is quite the thing. It is a "rain or shine" coat or in other words it's a reversible.

Peggy Thompson, one of our little freshmen has been sporting a new beige sweater and green corduroy skirt.

During "them cold days" Jackie donned the most "exciting" stockings. They were exciting 'cause everyone that saw her got a crazy notion that she was going "coo-coo." She wore long brownish cotton stockings. Several other girls wore them after Jackie started the "rage."

Polly Richardson pranced up to school during exams with a very, very fetching brown and blue plaid two-piece suit. The skirt has pleats in the front and back.

Hazel Turner's new hair-do is very chic. (I've always wanted to use that word). It has curls in the back and a bang effect in the front. Speaking of Hazel, she's been stepping out in a new blue plaid skirt and a light blue long sleeved sweater.

The whole student body and especially Miss Turner's pupils wore dark circles under their eyes during exam week.
